rethinking globalization offers an extensive collection of readings and source material on critical global issues

using a variety of methodological approaches contributors offer a range of disciplinary ideological and theoretical perspectives on globalization in the economic political and cultural domains in addition to considering the role of numerous agents in the process they address its impact on nation states emancipatory feminist and environmental movements and migrant communities and their participation in and opposition to the phenomenon earlier versions of the 14 papers were delivered at an april 1998 conference at michigan state university

today the debates on globalization between its evangelists and detractors are still

raging in this concise balanced and accessible new text nick bisley assesses the nature and extent of globalization the key debates surrounding it and its impact on and significance for world politics

contributors from diverse disciplinary ideological and theoretical perspectives examine the multiple aspects and dimensions of globalization by employing a variety of methodological approaches the authors provide insights into the role of numerous agents in furthering the process and project of present and future globalization s as manifested in economic political and cultural domains furthermore they address the impacts of globalization in nation states emancipatory feminist and environmental movements and migrant communities as well as identify their participation in and opposition to the phenomena of globalization

globalization in economics sciences means the movement of goods and services and financial flows along international borders the book presents a rich literature review to establish the efficacy of globalization in raising income levels across nation states as well as it is foundational to economic development of a nation state however with a recent trade war between us and china it is now understood that globalization that started with reduction in trade barriers across nation states in 1980s is concluding notwithstanding the conclusion of hyper globalization after us and china trade war when president trump imposed multi billion dollars of tariffs on chinese imports in 2016 international trade is still central to every country s national progress through foreign exchange earnings this book analyses how globalization can be interacted with socio economic variables like rule of law educated population or democracy to create an effective pro poor strategy for developing countries if international trade is embraced without having significant improvements in social sector globalization may create income disparities because international trade and globalization favors urban areas and educated segments of the population in developing countries

language while seemingly static is dynamic and ever changing necessitating adaptability in various fields of language studies it is especially true in a globalized world and an information age in the field of language and its applications it is essential to reconsider and redefine existing issues and envision how the changes may have impacts on human beings and on the entire globe redefining the role of language in a globalized world is an essential scholarly publication that explores the role language will play in a globalized world and how language changes over time through its interdependent relationship with technology featuring a wide range of topics such as bilingualism native speaker prejudice and social inequality this book is essential for educators linguists researchers curriculum designers academicians policymakers librarians and students

this book explains the meanings of globalization as a concept discussing the key debates and pointing towards new ways of understanding the process as a whole

contributors from diverse disciplinary ideological and theoretical perspectives examine the multiple aspects and dimensions of globalization by employing a variety of methodological approaches the authors provide insights into the role of numerous agents in furthering the process and project of present and future globalization s as manifested in economic political and cultural domains furthermore they address the impacts of globalization in nation states emancipatory feminist and environmental movements and migrant communities as well as identify their participation in and opposition to the phenomena of globalization

this book explores the need to rethink our concepts of nature culture and freedom in an age of increased globalization topics examined range from global justice international law and human rights to ecoterrorism cultural relativism and the challenges of autonomy

imperialism has become a key focus of debate about world politics in the post 9 11 world this major new text provides a systematic reappraisal of the evolution of the phenomenon and the concept from the 19th century as the basis for a reassessment of globalization and us hegemony in the world today

new tools for succeeding globally why do so many global strategies fail despite companies powerful brands and other border crossing advantages because a one size fits all strategy no longer stands a chance when firms believe in the illusions of a flat world and the death of distance they charge across borders as if the globe were one seamless marketplace but cross border differences are larger than we assume most economic activity including trade real and financial investment tourism and communication happens locally not internationally in this semiglobalized approach companies can cross borders more profitably by basing their strategies on the geopolitical differences that matter they must identify the barriers their strategies will have to overcome and they must build bridges to cross those barriers based on rigorous research pankaj ghemawat shows how to create successful strategies and provides practical management tools so you can assess the cultural administrative geographic and economic differences between regions at the industry level and decide which ones require attention track the implications of the specific border crossing actions that will impact your company s ability to create value the most generate superior performance through strategies that are optimized for the three a s adaptation adjusting to differences aggregation overcoming differences and arbitrage exploiting differences using in depth examples ghemawat reveals how companies such as cemex toyota procter gamble tata consultancy services ibm and ge healthcare are adroitly managing cross border differences he also shares examples of other well known companies that have failed at this challenge crucial for any business competing across borders redefining global strategy will help you make the most of our semiglobalized world

annotation reveals conceptual foundations of global processes describes the political economy of high tech global production and challenges its authenticity and inevitability argues that policy is driven by a technocratic mindset that addresses social and ecological problems through ineffective half measures and shows that the most compelling examples of social improvement stem from grassroots activism and social movements lacks a subject index the author teaches politics and chairs the program in public policy analysis at pomona college annotation copyrighted by book news incorporated portland or

the first edited volume to present decolonial critiques of fashion and globalization and explore the dynamics of de globalization to propose more diverse fashion definitions practices and aesthetics

the existence of human rights helps secure the peace deter aggression promote the rule of law combat crime and corruption and prevent humanitarian crises these human rights include freedom from torture freedom of expression press freedom women s rights children s rights and the protection of minorities this book surveys the countries of asia and the pacific and is augmented by a current bibliography and useful indexes by subject title and author contents preface part i australia brunei burma cambodia china taiwan only china includes tibet hong kong and macau east timor fiji indonesia japan kiribati democratic people s republic of korea republic of korea laos malaysia marshall islands federated states of micronesia mongolia nauru new zealand palau papua new guinea philippines samoa singapore solomon islands thailand tonga tuvalu vanuatu vietnam afghanistan bangladesh bhutan india maldives nepal pakistan sri lanka part ii special bibliography part iii indexes by subject title and author

human rights refers to the concept of human beings as having universal rights or status regardless of legal jurisdiction and likewise other localising factors such as ethnicity and nationality for many the concept of human rights is based in religious principles however because a formal concept of human rights has not been universally accepted the term has some degree of variance between its use in different local jurisdictions difference in both meaningful substance as well as in protocols for and styles of application ultimately the most general meaning of the term is one which can only apply universally and hence the term human rights is often itself an appeal to such transcended principles without basing such on existing legal concepts the term humanism refers to the developing doctrine of such universally applicable values and it is on the basic concept that human beings have innate rights that more specific local legal concepts are often based within particular societies human rights refers to standards of behaviour as accepted within their respective legal systems regarding 1 the well being of individuals 2 the freedom and autonomy of individuals and 3 the representation of the human interest in government these rights commonly include the right to life the right to an adequate

standard of living the prohibition of genocide freedom from torture and other mistreatment freedom of expression freedom of movement the right to self determination the right to education and the right to participation in cultural and political life these norms are based on the legal and political traditions of united nations member states and are incorporated into international human rights instruments this new book brings together the latest book literature centred on this crucial topic

the world currently faces a number of challenges that no single country can solve whether it is managing a crisis prone global economy maintaining peace and stability or trying to do something about climate change there are some problems that necessitate collective action on the part of states and other actors global governance would seem functionally necessary and normatively desirable but it is proving increasingly difficult to provide this accessible introduction to and analysis of contemporary global governance explains what it is and the obstacles to its realization paying particular attention to the possible decline of american influence and the rise of china and a number of other actors mark beeson explains why cooperation is proving difficult despite its obvious need and desirability this is an essential text for undergraduate and postgraduate students studying global governance or international organizations and is also important reading for those working on political economy international development and globalization

what is the hottest american export since 9 11 the contributors to this provocative volume contend that it is western style globalism the dominant free market ideology that determines everything from most favored nation status to the declaration of war in this much needed post september 11 analysis an interdisciplinary team of authors shows how central concepts like globalization liberty free markets and free trade are increasingly being subordinated to and lumped together with the war on terrorism led by the u s and its allies the authors here hailing from all five continents contend that globalism is being adapted to particular social and political contexts in various parts of the world nonetheless the impact of globalization with an ideological twist can be devastating as military operations and propaganda supplant transnational trade initiatives as the focal point of global exchange and ironically the post 9 11 framework contains a major ideological contradiction social forces otherwise profiting from expanded global mobility and interchange must come to grips with necessary limitations on certain aspects of globalization this volume was handcrafted to outline the major lines of inquiry proposed for the new globalization series edited by manfred b steger and terrell carver writing in accessible engaging prose the contributors to this anchor volume consider themselves critical globalization theorists who seek to provide readers with a better understanding of how dominant beliefs about globalization fashion their realities and how these ideas can be changed to bring about more equitable social arrangements books in the series will share the same perspective and goals
